Water and Environment Journal
Promoting Sustainable Solutions

CIWEM

Congratulations — your article was one of our top downloaded articles in recent publication history!

Dear Naoyuki Kishimoto,

We are pleased to announce that your article **Effects of recirculation rate of nitrified liquor and temperature on biological nitrification-denitrification process using a trickling filter**, published in *Water and Environment Journal*, was one of the journal's top 20 most downloaded recent papers!*

As of year-end 2017 your article has received **458** downloads.

What this means:

- Amongst articles published between 2016-2017, your article received some of the highest downloads in the 12-months post online publication
- Your article generated immediate impact and helped to raise the visibility of *Water and Environment Journal*

Your contributions are vital to growing the profile of *Water and Environment Journal*.

Thank you for sharing in our journal's success,

Ewan McAdam, Editor-in-Chief

* Comparative exercise based on measuring downloads within the first 12 months of online publication, for articles published between 2016-2017
